We can explain the schemes to the people and people also can give their views or ideas to us. I think this suggestion can be considered by the Government and some works can be done for the benefit of people.

With regard to drinking water, we have got scarcity of water in some parts of the State and we may get rain in the month of April. Before we get rain, I think, wells should be dug for the supply of drinking water at least for a group of villages. I hope that this Government will see that the drought relief schemes are properly implemented in the drought-affected areas so that the people will be benefited by them.
